Awaken! Let the Flame Burn Brightly!

In the Great Divine Director, have elected to speak with you this day so that you will not mistake the course that is intended for the Sons and Daughters of God upon the Earth to follow! Many times, it is easy to look back across history and recognize the critical interplay of destructive forces taking place at various points around the globe. But the human consciousness does not always register those aspects of the Truth of Cosmic Law that must be applied to counteract those forces at the very moment they are needed most.

Yes, history shows the wholesale proliferation of human frailties and blatant disregard for the Presence of God whenever human creation has been allowed to run rampant. Is that not the case of this present era — when most of mankind turn a blind eye to the Presence of God, a deaf ear to the Voice of God; when across the world there is such a total void of true understanding as Illumination's Flame that would teach the individual lifestream right and morality according to the ways of the Presence of God?

So I say to mankind: Awaken! Let the Flame upon the Altar of the Heart burn brightly, sufficient to the day, so that there can be a consuming Flame that will burn away the lack of godliness in the land!

This is not intended for a mere few but requires the steadfast constancy of many lifestreams, shoulder-to-shoulder, as though they were moving a boulder up a high mountain; and with each turn of that boulder, the way

becomes lighter. When they approach the summit, those who remain and have stayed the course understand that along the way, they have gained great mastery. For in the process of gaining momentum and striving toward the summit, they have refined and honed their own vehicles of consciousness in the Light of the Christ, in the Wisdom of the Mind of God, and in the steadfast Love of God that is necessary to allow the Will of God to burn brightly!

I speak of these things so that as the Torch Bearers of The Temple raise on high their voice, their Flame, and as they gather a rolling momentum engaging in the Fire, the Sacred Fire of the Mighty I AM Presence, they will know that the fullness of the Victory is theirs and the cycle is *now* for their voice to be heard!

Understand, blessed hearts, this is not a short duration of world service that you are called to engage in! For some, it will mean many, many years of Constancy, given the span of their lifetime and the Divine Plan of their incarnation. But the length of time means nothing to the Mighty I AM Presence, who sees only the lasting glory that will be achieved when the Light of the Presence is dawning throughout the land as a Golden Age!

So in preparation for the coming Easter Conclave, hone and fashion the tools that are given to you with which to wield the Sword of Truth, the Shield of Protection, and the Armor of Light that each one must wear when entering into the fray!

We do not always wish to speak of warring — even where there are depicted those mortal forces pitted against one another that must be dealt with and when there is the absence of the Light. *Nevertheless, the Light must come forth and pierce through the darkness to consume it, to have it be no more!* But thus is the state of affairs when humanity has continued lifetime after lifetime in a downward spiral and only the few have accelerated toward the mount of attainment and the Christ Consciousness.

When I say “the few,” understand that these number in the hundreds of thousands. But when you look at the percentages of the millions of lifestreams in incarnation at the present time, you can see how the scales are weighted down toward that negative momentum that is absent the Light. Therefore, the dilemma of the new cycle: How to move forward, igniting the Threefold Flame upon the Altar of the Heart of those who hear not, see not, and have not enough of the Flame burning upon their Heart that

would enable them to know even the simple Truth that the Presence of God is the answer.

There are certain efforts that the Torch Bearers will by necessity be required to accelerate! Therefore, blessed ones, as you take up the next cycle with Master Morya and the Darjeeling Council, with the Karmic Board, and most especially with the Maha Chohan, you will establish a momentum of acceleration through the vehicles of consciousness of the Torch Bearers of The Temple that has never been known in times past in the outer realms of embodied mankind. Heretofore, such activity has only gone on in the Etheric Retreats where the Ascended Masters have been the ones to anchor the Fire.

What does this mean to the Torch Bearers of The Temple? It means that *this is the time* for each one to embrace their own Mighty I AM Presence and all that portends to the stripping away of their own human creation and putting it into the Flame, and galvanizing all their attention upon their Sacred and Holy Work at the Altar so that the few may be the salvation of the many!

This body of Torch Bearers will look back in time and realize, once history is written of this era, had they not acted and taken up the Sword of Truth of Cosmic Law and invoked the Flame of God, all would have been lost!

Therefore, let each one embrace the fullness of the Opportunity that is extended to them, no longer squandering away the days, thinking that surely there will be some better time prepared for them somewhere off in the future to give their all. *Now is the time* if there is to be the staying of the forces of negativity that would rip away the very opportunity of generations yet to come!

I commend you to your Sacred Labor and to the fulfillment of that Vision which this Manu beholds, desiring to see the Presence of God flourish and take hold in the land so that the Golden Age shall be anchored upon the Earth!
